Experience

Freelance Web developer | Ongoing

- Delivered professional websites using HTML, CSS, JavaScript and improved the website's performance by compressing and caching components such as images.
- Included responsive, multi-platform and hosting support, enabling their website to be used by any browser or device in the world!

Developer Support | Jun – Current

- Supported other students like myself using HTML, CSS, flexbox, JavaScript and React best practices.

Projects

Personal Website | [Website](#)

- My personal website highlights my programming skills and also contains the code to all my projects listed.

GymApp | [GitHub](#)

- Created a fully responsive commercial app with animations for personal trainers. Utilizing HTML, CSS and JavaScript.

Twitter Clone | [GitHub](#)

- Developed a social media app with React, using react-twitter-embed as an extended library to include real posts from real people as well as using Firebase to store all posts to be displayed in the feed.

Client's Website | [Website](#)

- Check all my customer's websites are in my personal website!

Education

Frontend Developer Bootcamp

Frontend Simplified

Computer Science, Uni of Kent

Studied for two years, however the more as time went, I realized the university route was not for me. However, while I was there, I learnt high-level language such as Java, HTML, CSS, SQL. Also improved my communication skills by being part of group projects. These group projects consisted of making prototypes of websites such as a pizza delivery company or NHS website with a linked database to GPs and patients.

Technical Skills

Languages: Java, HTML, C++, JavaScript, C++, Python.

Framework: React, ChillyFramework.

Tech: NPM, Git, Firebase, GitHub.
