Experience

Frontend Developer InternShip | Certificate

- Transformed a completely static HTML, CSS, JavaScript and React single page into an interactive user interface using carousels, animations and transitions.
- Using Axios I processed API requests to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing.
- Utilized Git version control and the GitHub Interface to work and thrive in a virtual and collaborative team environment.

Freelance Web developer | Ongoing

- Delivered professional websites using HTML, CSS, JavaScript and improved the website's performance by compressing and caching components such as images.
- Included responsive, multi-platform and hosting support, enabling their website to be used by any browser or device in the world!

Developer Support | Jun – Current

- Supported other students like myself using HTML, CSS, flexbox, JavaScript and React best practices.

Projects

Personal Website | [Website](#)

- My personal website highlights my programming skills and also contains the code to all my projects listed.

GymApp | [GitHub](#)

- Created a fully responsive commercial app with animations for personal trainers. Utilizing HTML, CSS and JavaScript.

Twitter Clone | [GitHub](#)

- Developed a social media app with React, using react-twitter-embed as an extended library to include real posts from real people as well as using Firebase to store all posts to be displayed in the feed.

Client's Website | [Website](#)

- Check all my customer's websites are in my personal website!
