

LUIS FARIA

Lpedrosf02@gmail.com | 07543218752

Summary

A pro-active, solution-oriented junior software developer who has the experience required to develop responsive, multi-platform, and performant applications. With today's technology always changing and improving I am quick to also adapt and pick up new technologies.

Experience

My Portfolio

March 2023 – Onward

My portfolio can be found at luisfaria.co.uk. Most of my projects can be found through my portfolio. I am always trying to work on new projects to further strengthen my portfolio and knowledge.

Frontend Developer Bootcamp Frontend Simplified

June 2022 – March 2023

Through this course, I expanded my knowledge of HTML, JavaScript, CSS, and React and learned useful techniques such as Flexbox to keep a website responsive, and accessible from multiple devices. I also learned JavaScript and how to implement it to the website to make the websites more interactive as well as using JavaScript to access data from an API.

Hard Skills

- Java
- HTML
- CSS
- JavaScript
- React
- C++
- Python
- Pygame
- SQL
- Git
- Firebase

Soft Skills

- Perform well working alone and in a team
- Effective interpersonal & communication skills
- Adaptable to new tasks and frameworks
- Analytical approach for problem solving
- Attention to small details

Education

Computer Science at the University of Kent

2020 – 2022

Studied the following relevant modules:

- Introduction to Object-Oriented Programming
- Further Object-Oriented Programming
- Problem-solving with Algorithms
